BELGIUM SEEKS TO PAY WAR DEBT

SETTLEMENT OF \$480,000,000 DEBT IS SOUGHT

Belgium Declares Desire to Initiate Payment of Debt to U. S. Government

LOANS MADE BY TREASURY

This is First Break in Ranks Of European Debtor Nations Owing Seven Billion

(By Universal Service)

WASHINGTON, May 29. Belgium today declared its desire "to initiate payment of debt to the United States at an early date negotiations for the definitive settlement" of the \$480,000,000 debt owed the United States treasury on loans made during and after the world war.

The declaration was made by Baron de Cartier, Belgian Ambassador, who called upon Secretary of the Treasury Mellon, chairman of the American debt commission.

The Belgian Government, Baron de Cartier told Mr. Mellon, will send to Washington a committee of Belgian financiers headed by former Premier Theunis.

This committee will be authorized to take up with the American debt commission negotiations for a "definite settlement."

FIRST EUROPEAN MOVE

Announcement of the Belgian declaration, which constitutes the first break in the ranks of the European debtor nations owing \$7,400,000,000 to the United States, and was made by Secretary Mellon following a long conference late today with the ambassador.

Prior to conferring with Mr. Mellon, Baron de Cartier had met earlier in the week with Secretary of State Kellogg, who then held a long conference with the head of the debt commission.

Baron de Cartier will leave for Belgium on June 9. He will confer with officials of his Government and will return to the United States with the Belgian debt committee.

BIG PROGRAM PLANNED FOR DINNER MEET

Each merchant is invited to bring his whole force to the get-together dinner of the Richmond Merchants association, to be held in the Memorial hall on the evening of Monday, June 8 at 6:30 o'clock. It was announced yesterday by Marie Jensen, secretary of the association. A shopper will be in the field next week and it is important that each merchant should take an "inventory" of his force and decide how many will attend.

Miss Jensen says a better showing is expected than was made last time, though that was a pretty good one. Tickets have been donated by the Kearney-Furrer company and will be on sale this week by William Mayer.

Both the banquet hall and the ball room of the Memorial hall have been rented for the occasion and while the dinner is being served in the banque hall by the women of St. Edmund's Guild, special stunts and dances will take place in the ballroom.

There will be a Spanish singer and a Spanish dancer, and other features on the entertainment program, and Dennis Shaw's orchestra has been engaged to furnish music for the grand ball that will start about 9 o'clock and continue as long as the dancers stay. There will also be jazz singing and dancing.

Governor Saves Sportsmen Added Tax Burden on Fish, Game Law

SACRAMENTO, May 29. (Special) Governor Friend W. Richardson declined to sign Senate Bill 602 increasing the license fee for fishing from \$1.00 to \$2.00 and for hunting from \$1.00 to \$2.00 on the ground that the fish and game commission had all the money necessary, and that the majority of the people were opposed to the added tax burden. The governor said: "The fish and game commission has, under the economy plan of my administration, built up a large surplus and will have in the budget \$12,753,929, which is all the money that can be properly spent in the next two years. This is \$233,000 more than any previous biennial appropriation. The budget provides for fish hatcheries, equipment, fish distribution, game farm buildings, launches, game warden, and other items."

The advocates of increased license want the state to employ a board of detectives to spy upon people who hunt and fish. I believe that the present force of game warden is sufficient to properly and intelligently directed.

"It is the duty of every police officer and every sheriff and constable and their deputies to apprehend law violators. The enforcement of law and the prosecution of law violators is a county and city function and not a state function.

"The demand for an increased license comes from an evident misapprehension of the law and of the commission's finances. After a careful canvass I am convinced that the great majority of the people who hunt and fish feel that the present tax is sufficient. The average citizen who pays a license and gets neither fish or game, as is usually the case, feels that the present tax is too high. I fully sympathize with the majority as I have to have years been paying the license without tangible results."

Sweeping Action Against Furniture Dealers Is Started

CHICAGO, May 29. Federal action, as sweeping as the prosecution of the Standard Oil cases was taken today against officials of the furniture industry when the Grand Jury returned 269 indictments charging violation of the Sherman anti-trust law and conspiracy in restraint of trade.

The basis of the charges is that "gentlemen's agreement" was maintained throughout the furniture manufacturing industry toward the elimination of competition and the maintenance of exorbitant prices for furniture.

Roger Shad and W. H. Tenham, assistant attorney-general from Washington, handled the investigation before the Grand Jury and presented the evidence which resulted in the indictments.

Every phase of the furniture manufacturing industry is hit, the indictments being divided into three classes, and charging that the allegedly unlawful conditions in many instances dated back to 1913.

Along with the manufacturers four individuals were also indicted. They are William H. Coyne, a "cost expert" who is charged with being the master brains and guiding hand of the fixing conspiracy; Clarence W. Coyle, secretary of the National Association of Chair Manufacturers, and Arthur C. Brown, secretary of the National Alliance of Furniture Manufacturers.

At the Richmond Maternity hospital yesterday, a baby girl was born to Mr. and Mrs. Francis Daily, 424 Pacific Avenue, Richmond.

(By Universal Service)

SACRAMENTO, Cal., May 29. Floyd Hall, the "Killer" the man who escaped on April 7 from San Quentin prison with Joe Tanco, the so called "Phantom Bandit" and became a dangerous quarry in the most thrilling criminal hunt of the modern west, has taken up religion.

Sitting alone and silent in his cell at the county jail where he awaits trial on indictments charging him with murder and murderous assault, both asking the death penalty, Hall is apparently finding consolation in a bible sent to him through the mail by welfare workers. Every day he reads the scriptures for hours, according to his jailers.

Hall was trained in religion both at church and Sunday school as a boy, and it is only reasonable that he should turn to the bible in his present predicament, said Ray Coughlin, Chief Defense Counsel today. "He has told me repeatedly that he is innocent of the murder of H. J. Litzberg and we feel that the death penalty cannot legally be asked against him on the other indictment accusing him of shooting Patrolman Clyde Nunn."

Coughlin announced that Hall will enter a plea of not guilty when he enters the courts next Tuesday.

BIRTH IS REPORTED

At the Richmond Maternity hospital yesterday, a baby girl was born to Mr. and Mrs. Francis Daily, 424 Pacific Avenue, Richmond.

MEMORIAL DAY

"With malice toward none, with charity for all, with firmness in the right as God gives us to see, the right, let us strive on to finish the work we are in, to bind up the nation's wounds, to care for him who has borne the battle and for his widow and his orphan, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations." —Abraham Lincoln, March 4th, 1865.

The Record-Herald will not publish tonight and there will be no more papers until Tuesday morning.

On to Richmond Slogan Directs Attention Upon Air Meet Here

"On to Richmond" was once the slogan of the war between the States, but today it is beginning to be the watchword of all the Pacific Coast, since all roads are pointing to the dedication of Central California's great Air Port at Richmond, June 27 and 28, with a stupendous and spectacular air meet.

More than 100 planes will be at the Richmond field at the time, and the tentative program for the two thrill-giving days is announced by the Richmond Chamber of Commerce as follows:

SHAW BATTLE

With:

Bombing planes,

Artillery,

Machine guns,

Infantry,

AIRPLANE RACES

Parachute jumps

Formation flying

Dead stick landings

Military music,

Balloon snapping,

Demonstrations by United States army and navy planes, all types,

"Something Doing Every Minute,"

Thrills galore, combining all the movie stunts ever seen.

Adequate parking facilities will also be provided for all automobiles.

Air meet stickers for automobile windshields, are now ready at the Richmond Chamber of Commerce, and in order that all may aid in making this Richmond's greatest celebration, all car owners are asked to call at the Chamber, on Tenth and Macdonald, and get a sticker. In this way it is hoped that every automobile going out of Richmond will carry the news of the great air meet.

REACHING OUT

The length of a man's fingers used to be the measure of his effectiveness in his eternal combat with Nature and with other men. This was a long time ago.

The earliest lesson man learned was that the compass of his arm-length was not enough to allow him to prevail over his enemies. He had to put extensions on his fingers and toes. Undoubtedly the first such extension of power came when a fury man-animal—with due salaams to the fundamentalists—picked up a piece of broken tree limb and added inches or feet to the effective length of his own limb by batting some chattering ape less thoughtful over his low-browed head.

The stick swung in the hand, the club or stone hurled at a mark, the javelin, pointed to make it more deadly, developed as weapons. Incidentally, those same articles became tools from more peaceful occupations, and the same stone axe that split the head of a sabre-toothed tiger, split the wood that would cook him when cut up in boggets for the man's woman and children.

All subsequent development of tools and weapons has been along the same line. The bow reached farther with its sharp point than the spear; the musket outranged the bow and the rifle has antiquated both. Man's faculties, whether to strike or hew or pierce have been vastly increased in power by the fabrication of things conceived in his expanding mind.

But there has also been a great increase in the range of man's faculties—his, senses. He uses telescopes to make his eyes see farther and after he found that sending up smoke or waving flags from hilltops no longer served to keep up his communications, he got around to the telegraph, which is nothing more than a device by which the ear is made more powerful. Instead of talking face to face or shouting across a river or gorge, man now can listen and reply to his friends over thousands of miles by electricity.

So it is with the sending of a photograph from Honolulu to New York by radio. The camera is not only an extension on a man's eye but a device for making permanent what he sees. In other words, beside permitting a man to see farther, the camera lets him see longer. With it, he can look at a scene, give over looking to attend to other duties, and then at leisure, resume looking, even after the scene has vanished. In transmitting photographs by radio man is merely carrying on the job of building extensions to his arms and ears and eyes and feet that he started in the primeval forest when he picked up the first stick and smashed in a prehistoric skull. Nuri, however, is a throwback, for while the race has been building dugout canoes, carts, railroads, automobiles and airplanes as extensions on his legs, the Finn and his kind, go back to the primitive use of the leg muscles and bones.

URUGUAY WAKES UP

Uruguay at last is on the map. It is not only in the geography, but what is far more important, in the newspapers. Athletic prowess has done it.

Uruguay, be it known for the benefit of our ardent but rather provincial American sportfans, has a soccer football team that has cleaned up everything in South America and almost everything in Europe. It has not yet lost a game. Its latest achievement is a tie game in Paris, where the French, who are very good at soccer, thought themselves lucky not to be ignominiously licked.

That champion aggregation should stop off in this country for a few games, on its way home. There is no better way of cultivating acquaintance with "the other Americas" than through clean sport; and football is a rather better form of contact than prize-fighting, though no better for advertising purposes.

It's one of the wise provisions of nature that angle worms come to the surface just at the time of year when men and boys begin to get the fishing fever.

Some folks are asking whether "Pa" or "Ma" Ferguson is governor of Texas. It looks like a gubernatorial combine, with Pa as governor and Ma as governess.

Don't put all the blame on the billboard men and advertisers. It's surprising how many farmers think land is something for billboards to grow on.

The flowers that bloom in the spring, trala, have a harder time than ever dodging nature-lovers out for a drive in the country.

As Shakespeare might have addressed a jazz orchestra: "If music be the soul of noise, play on!"

It isn't only fatalities that decrease the pedestrian population. Millions of them buy cars and start driving in self-defense.

WISE AND OTHERWISE

By MARY MARSHALL

THE FIRST HALF HOUR

A KEEN student of human nature says that he can get a better idea of the character of a family by the way it behaves during the first half hour of the day than by any other period of the day. What happens in your house during the first thirty minutes after the alarm clock goes off? Do you work according to some definite system or is there confusion with the problem of getting started needing to be solved every morning?

It is most certainly a good plan to have these first minutes of the day thoroughly systematized. In some families there seems to be no system. The early morning tasks really call for no originality, so it is folly to spend any original thought on them.

If there is one bathroom for several members of the family then there should be a very definite time schedule for the bathroom, with no more than ten minutes allowed to each one for the morning bath. Tasks should be quite definitely apportioned beforehand if there are children, so that there need be no

"REMEMBRANCE"—

The World's Gentlest Emotion

The formal occasion of a Nation's remembrance comes at a time when Nature gives us sunshine and flowers to make this memorial perfect. The beauty of death is in our hearts' sure idealization of the qualities of those that Death has taken. Thus, the heroes of the past become the demi-gods of the present—deathless, and cherishing.

Santa Fe 1 4 200

The Richards Radios ball club struck another feature in its cap last night at First street by defeating the El Cerrito Merchants by a score of 4 to 3 in seven tight, fast innings. The game was devoid of spectacular plays and hits. Krow clouted the longest—a double in the second half of the first. This hit was of no avail however, as he was the first man up.

The El Cerrito defeat may be largely attributed to errors on the part of the fielders as during the game they made a total of five errors. Offencamp of the losers pitched a good game, even though he was charged with a defeat. He allowed only five hits and only walked a pair of men. He fanned 9. Gathering of the Radios, allowed five safe ones, gave the same number of bases on balls and only fanned 7. In view of these figures, and by the looks of the game, Offencamp pitched the better game. But he didn't have the support.

Memorial Day

Is consecrated to the undying memory of those HEROES who through sacrifice, suffering, and that supreme love of their country have laid down their lives that we might live in peace.

Today we stand silently, with bowed heads and profound reverence in honoring those HEROES for their deeds.

If today we could see the white crosses of our war dead in France and the very soil that has been drenched in scarlet we would know the story of the storms that shook civilization to its very foundation.

The feature of the Holy Ghost celebration at San Pablo today, Sunday and Monday will be the auction on Sunday afternoon at 3:30 o'clock by A. L. The Silent Columns

Are marching again. Marching in our memories as we pause to observe Memorial Day. And their silent "tramp-tramp" reminds us to keep faith with them.

They smilingly and unselfishly gave up the most valuable and most precious thing man has to offer his country—his life. They did it for but one reason. And that was—the preservation of American Ideals and Freedom. We, who remain behind to benefit by the sacrifices of those departed heroes, must fulfill the duty we owe them. We must keep the faith by standing solidly behind and always ready to defend those great ideals for which they fought and died.

Let that be your uppermost thought and silent tribute to the nation's defenders on this Memorial Day.

BUY CAR WITH VACATION FUNDS

"A lot of people are buying a car this Spring with the vacation money and still having a better vacation than ever," says J. P. Strom, Hudson-Essex dealer.

"As a matter of fact, the sum usually spent for the ordinary family for vacations will buy a good car. It is equally true that all one needs for a bang-up vacation is a dependable automobile. The operating cost is nominal, and auto tourists accommodations are everywhere obtainable at very low cost.

"A party of four or five can have a fine long auto trip—a vacation cost for little more than the cost of staying at home.

"And the money that the vacation would otherwise cost will make at least a substantial payment on any car the family wants."

SPEEDERS PAY FINES

E. Banner was fined \$25 and G. Gondola, \$20, in Police Judge C. A. Odell's court yesterday on charges of speeding.

VISITS PALO ALTO

Mrs. Marie M. Jensen, secretary of the Richmond Merchants association, will spend the week-end holidays in Palo Alto.

Gas Tax Bill

Continued from Page 1

warned the motorists that a continuance of the old highway regime meant an increase in their tax burden. While I made no issue of that kind I felt morally bound to see that motorists' taxes were not increased.

Consequently, in 1923 when the plan of a gas tax was broached I insisted that a corresponding reduction in license fee should be made. Such a change was made and owners of popular-priced cars who formerly paid \$8.80 license fee now pay a \$3.00 license and an average of \$5.60 gas tax, or a total of \$8.60. Thus

the tax on owners of popular-priced cars was not raised. To add one cent now to the gas tax would increase the tax on the average owner of the popular priced car \$2.80.

"The motorists are willing to pay two cents gas tax for the maintenance of state and county highways and reconstruction. I feel I should protest against increased taxes unless it should appear they are overwhelmingly in favor of such increase. The motorists are divided. The two automobile clubs are divided in opinion. The State Club representing the state from Tulare county north has 51,000 members and favors the increase. The Southern Club representing the state from Tulare south with 107,000 members is opposed to the increase. The vote in the legislature showed the the members for the increased tax represented 700,000 registered voters and those opposed represented 1,000,000 voters.

NO POPULAR DEMAND.

"Having been elected on an economy platform I cannot increase taxes in any way except upon apparent popular demand representing a strong majority.

"There will be sufficient money for maintenance and reconstruction, and state highway work will go ahead with rapid strides with the present two cent rate. The mountain counties would gain nothing from the one cent tax as the roads there will be taken care of with the maintenance money. Assembly Bill 589 which I signed means better roads at small expense for maintenance and will be for reaching in its effect on future highway construction. This bill will make it possible to maintain roads in the mountain districts which after a few years work will become splendid highways.

"The propagandists favoring the increased gas tax have spread many false and misleading statements and have tried to lead the public to believe that all highway work will stop if this bill is not signed. Such is not the case. The budget submitted by me to the legislature and approved by it by unanimous vote contained the great total of \$28,757,740 for highway work. Besides this amount \$4,900,000 has been made available by the federal government for highway construction since the adjournment of the legislature. The public will be assured that highway work will go ahead under the intelligent and skillful management of State Highway Engineer Morton and his able staff, free from any interference from legislative bungling.

REFERENDUM OBLIVIATED.

"The bill cannot be submitted to referendum as it is a tax measure. If a proposition should be submitted to the people it is hoped it will be a plain measure understandable by all and free from objectionable riders. I welcome the opinion of the people upon this subject.

"The two automobile clubs of
